

Curriculum Vitae

Since 2022	Ph.D. in sociology of science at Bergische Universität Wuppertal
2018-2021	Master Sociology at Rheinische Friedrich-Wilhelms-University Bonn
2014-2018	Kombi-B.A. Sociology / German Studies at Kassel University

My background and research interests are the sociology of knowledge, sociology of professions and sociology of medicine. Therefore my Ph.D. focus will be 'On the Professionalization in the medical field with special focus on simulations' (working title). In my study I consider medical simulations and their historical developments as examples for the discussion within the medical field regarding a more practical education of future professionals.
